

I love my XM Satellite Radio: I have three of them! Satellite radio provides variety and quality that is not available elsewhere plus, I get traffic and weather channels. This broadcast service is available everywhere...even when I am driving down a long road in the middle of nowhere! I don't have to settle for a bad reception crackling voice or an endless farm report. I pay for XM services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
